

World Software Debuts Worldox GX2 !!!!

August 24th, 2009 – Ridgewood NJ - **World Software Corporation**, a leading provider of SMB & Enterprise document management solutions, today announced the availability of Worldox GX2, the latest version of its award winning document management solution. Worldox GX2 advances World Software's 20 year tradition of producing robust, full featured document management software for legal and other industries.

This latest version delivers an exciting array of new features and functions that will increase user productivity and ease of use for customers to maximize their investment in Worldox. As with prior releases, Worldox GX2 is free of charge to our existing maintenance customers.

Worldox GX2 features major enhancements to Document Management such as –

- **“Worldox inside Outlook”**: Provides ONE seamless interface to manage all your emails and documents.
- **“Workspaces”- Meta-folders**: Subscription based repository containing documents from any folder or (WORLDFOX) Projects, personalized by user- a/k/a “My Workspaces”; the ultimate collaboration repository. Also includes new features - “Drag & Drop” of documents to Workspaces, and “Views” – Special search template for use with Workspaces to provide filtered file lists.
- **New GX2 WorkFlow and Management Reporting Modules**
-You asked and we delivered; seamless inter departmental communication modules.
- **Customizable file locations for Archive, Record or Salvage repositories**: Worldox Document Retention Module allows alternate locations for Archive, Records or Salvage repositories.
- **“Ethical Wall” enhancements**:
 - Enables ethical wall settings down to the folder level.
 - New 3-Pane, cascading interface - To apply security settings faster, easier and more confidentially.
- **“Cloud”**: Visual filtering of file lists.
- **Document Previewing Panes**: Now multiple and re-sizeable.
- **Folder Tree & List view enhancements**: The folder tree now shows profile field descriptions alongside the profile field codes and auto-expands when given focus to make navigation easier.
- **Graphical interface**: To easily managing custom application integration.

Worldox GX2 will be shipping for new customer installations on September 1, 2009 and available for existing customer upgrades November 1st, 2009.
